Accessbility and inclusivity in education for divyangs

AAT News Service

THE Department of School Education & Literacy, Ministry of Education has launched an overarching programme for school education sector – Samagra Shiksha Scheme. The scheme aims to look at education of Children with Special Needs (CwSN) in a continuum from pre-school to class XII. The scheme covers all CwSN with one or more disabilities as mentioned in the schedule of disabilities of Rights of Persons with Disabilities (RPwD) Act, 2016, said the Union Minister of State for Education, Jayant Chaudhary.

Replying in Lok Sabha, he said there is a dedicated component of inclusive education under Samagra Shiksha for education of CwSN. Through this component, CwSN are provided support via specific student oriented interventions such as identification and assessment camps, provision of aids, appliances and assistive devices, transportation, scribe and escort allowance support, Braille books and large print books, stipend for girls with special needs and teaching-learning materials etc. in order to appropriately address their unique educational requirements in general schools. Further, individualised support is also provided through therapeutic interventions at the block level.

Samagra Shiksha also has provisions for creation of differently-abled friendly infrastructure such as ramps, ramps with handrails and differently-abled friendly toilets for barrier-free access in schools, he said.

Further, government has notified the accessibility code for educational institutions on January 10, 2024 and the same has been notified in the Rules of RPwD Act 2016 on June 20, 2024. The code examines the physical barriers and information & communication barriers of access to school facilities for CwSN. It provides child friendly standards with cost effective solutions for existing buildings, along with elements to make new buildings compliant with national accessibility standards.

The government has amended the schedule to Right to Free and Compulsory Education Act, 2009 and notified the Pupil Teacher Ratio (PTR) for special education teachers in general schools with 10:1 PTR at primary level and 15:1 PTR at upper primary level.

In addition, government also provides several exemptions/ concessions to CwSN such as facility of scribe and compensatory time, appointment of scribe and related instructions, fee and special exemptions like exemption from third language, flexibility in choosing subjects, alternate questions/separate question etc.

Besides, teaching-learning materials are easily available in accessible digital form for instance talking books in DAISY/e-Pub for learners with blindness and low vision. Indian Sign Language (ISL) introduced as a language subject at secondary level by National Institute of Open Schooling and also as a language subject to Deaf and Hard of Hearing Learners at secondary level, study materials have been developed as videos in ISL format, one-hour live telecast in ISL thrice a week on PM e-Vidya TV channel to disseminate awareness of ISL across the country, added the minister.
